THEME OF THE SEMINAR
 North Eastern region comprises eight states including Sikkim along with the Seven Sisters. This part of India is inhabited by various communities and tribes of different castes and creeds. Though the region is marked by heterogeneity of culture and distinctions of ethnicity, yet identity crisis, marginalization and social exclusions are some of the major issues that canker the whole region. It is also known as the hotspot of insurgency and violence. However, the problems of identity crisis and marginalization lead to ethnic rising, socio-economic and political unrest, extremism and insurgency. The region is rich in natural and human resources, cultural heritage and distinctions, but it has not been able to attain proper attention it deserves. These issues and problems have been continuously posing challenges to socio-economic development, peace and prosperity of the region. Considering all these to bring together leading scholars, thinkers, social scientists, activists, practitioners, researchers who have been working on various issues of North East India, this seminar intends to provide a platform to address the issues and ponder over their redresses.
